## OUR MISSION

We deliver prime education by developing active-learning experiences for learners in a child-friendly environment to create personalities reflecting Islamic teachings and to help learners develop 21st -century learning skills.

# OUR CURRICULUM

Our planned and structured curriculum is based on Islam, society, and character. We believe in developing learners in all paradigms by providing them hands-on learning opportunities. We deliver enriched yet age-appropriate learning experiences to learners by utilizing various educational resources.

We aim to shape learners through explicit, implicit, and extra-curricular curricula. Our learners do not only learn from the classroom, but they are true experiencers who learn from each experience of their life.

## OUR BASE

ISLAM

PERSONALITY

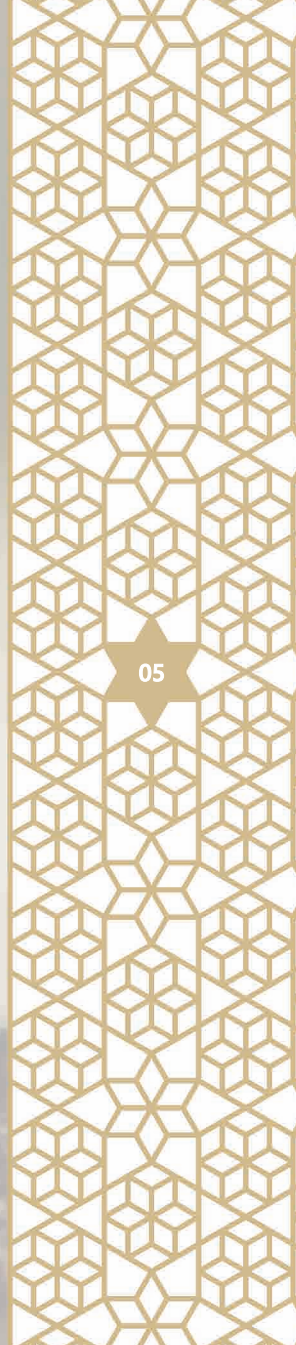

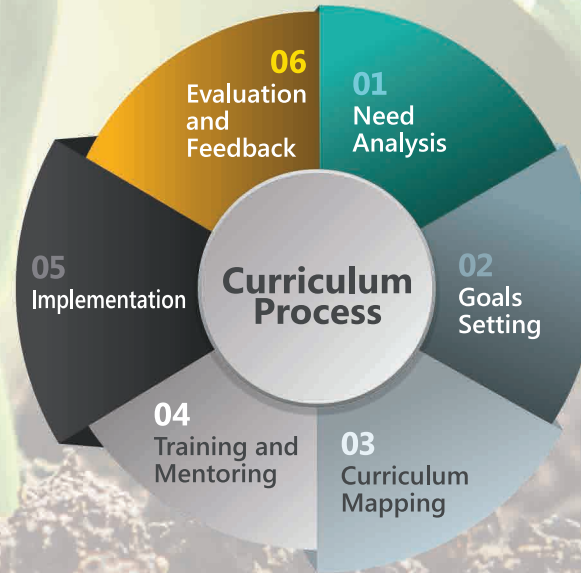

SOCIETY

This requires attitudinal modification. Therefore, we work on their behaviors and attitudes to make them better humans.

Our curriculum is cyclic. It is regularly evaluated, updated and, modified as per need by experts. We consistently monitor the implementation of the curriculum and ensure that the teachers teaching it are well trained.

## OUR GOALS

To develop learners who:

- ◆ Have a firm belief in Allah ﷻ and His Messenger ﷺ.
- ◆ Reflect Islamic teachings.
- ◆ Are socially competent, sympathetic, empathetic, and having the strength to control emotions when needed.
- ◆ Have higher cognitive and problem-solving abilities.
- ◆ Are skillful in using technology.

- ◆ Have a heart that is curious to learn and a brain that can process the natural data scientifically to know the world better.
- ◆ Are critical thinkers, creative, imaginative, and analysts.
- ◆ Are effective communicators.
- ◆ Are law-abiding citizens.

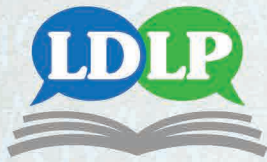

## OUR BELIEFS

- ◆ Proper Islamic-learning is the key to prosperity in this world and life hereafter.
- ◆ Children learn best when the environment is friendly.
- ◆ Experiences are more important than books.
- ◆ Children never develop in one domain; they develop holistically.

- ◆ Every child is unique; their requirements and abilities are distinctive.
- ◆ Emotional intelligence is one of the most important competences of humans.
- ◆ Intrinsic motivation is vital for any achievement.
- ◆ Twenty-first-century learning skills are keys to excel in personal and professional life.

## Language Development & Literacy Program

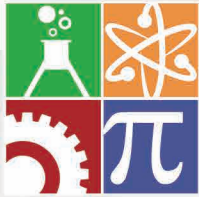

We live in the era of globalisation. Good communication and comprehension skills are the primary requisite for advancement. At Prime Blessings Islamic School, we offer Language Development and Literacy Program (LDLP) based on the latest researches regarding language acquisition and literacy.

We offer the following language and literacy courses:

- ◆ English Language and Literature
- ◆ Urdu Language and Literature
- ◆ Digital Literacy
- ◆ Arabic Language for Reading Purpose (ALRP)
- ◆ Basic French

## **STEM** Science, Technology Engineering, Mathematics

Science, technology, engineering, and mathematics each of these disciplines has a significant impact on others. Teaching these disciplines in isolation makes the learning abstract and more theoretical rather than experiential. We at Prime Blessings Islamic School offer blended learning of these disciplines.

Key features of our STEM Program:

- ◆ Inquiry-Based Learning
- ◆ Project-Based Learning
- ◆ Blended and integrated learning
- ◆ Independence, curiosity building, and critical thinking

## PRACTICING MUSLIMS DEVELOPMENT PROGRAM

The most important and unique feature of our school is our Practising Muslims Development Program (PMDP). The Program is designed for the holistic-Islamic development of learners. The philosophy behind this program is derived from the teachings of the Quran and Hadith.

The program is to provide learners sufficient knowledge of Islam, develop the skills required for Ibada'h and personal-social affairs, reinforce positive behaviors, and make them practising Muslim.

Our PMDP comprises of the following courses:

- ◆ Nazra Course
- ◆ Hifz Course
- ◆ Islamic Learning
- ◆ Tarbiyah
- ◆ Arabic Language for reading purpose (ALRP)
- ◆ Quran and Hadith Fehmi

## FACILITIES

Well-equipped  
labs to ensure  
experiential learning

Spacious building  
at prime location

Play area to help students grow and train physically

Prayer area to help students practise Islamic teachings

Air-conditioned classrooms to keep learners active

## OUR LEARNERS

### **Our learners are exemplary practising Muslims who:**

- ◆ Have strong beliefs in Allah and His last Prophet Muhammad ﷺ
- ◆ Have sound knowledge of Islam
- ◆ Offer prayers punctually
- ◆ Follow Sunnah
- ◆ Are Hafiz-e-Quran
- ◆ Have well-mannered and disciplined personalities

### **Our learners are smart and well organised who:**

- ◆ Think systematically
- ◆ Do science
- ◆ Assume, arrange, calculate and solve mathematically

**Our learners are creative and imaginative who:**

- ◆ Think creatively
- ◆ Utilise resources to create something worthy
- ◆ Keep a high artistic and aesthetic sense

**Our learners are collaborative and ethical who**

- ◆ Sympathise and empathise with others
- ◆ Take care of the environment and other human beings
- ◆ Support and uplift others

**Our learners learn to take good care of health and hygiene who:**

- ◆ Eat healthy
- ◆ Exercise daily
- ◆ Follow safety rules

## DIRECTOR'S MESSAGE

*"Give due respect and regards to your children, and decorate them with the best manners."* (Abu Dawood)

The above mentioned Hadith of Sayyiduna Rasoolullah ﷺ best represents our goal. Children at Prime Blessings Islamic School are treated with respect, consistency, and encouragement. In this warm environment, children experience playful and developmentally appropriate learning each day as they grow and blossom. Teachers intentionally plan lessons to meet individualized developmental goals, while ensuring that learning is fun, playful, and relevant to their lives.

We offer hands-on learning experiences that encompass a variety of skills necessary for the holistic development of children. We believe that children have specific individual needs and we work diligently to find the best methods to reach each learner and to bring out their best potential.

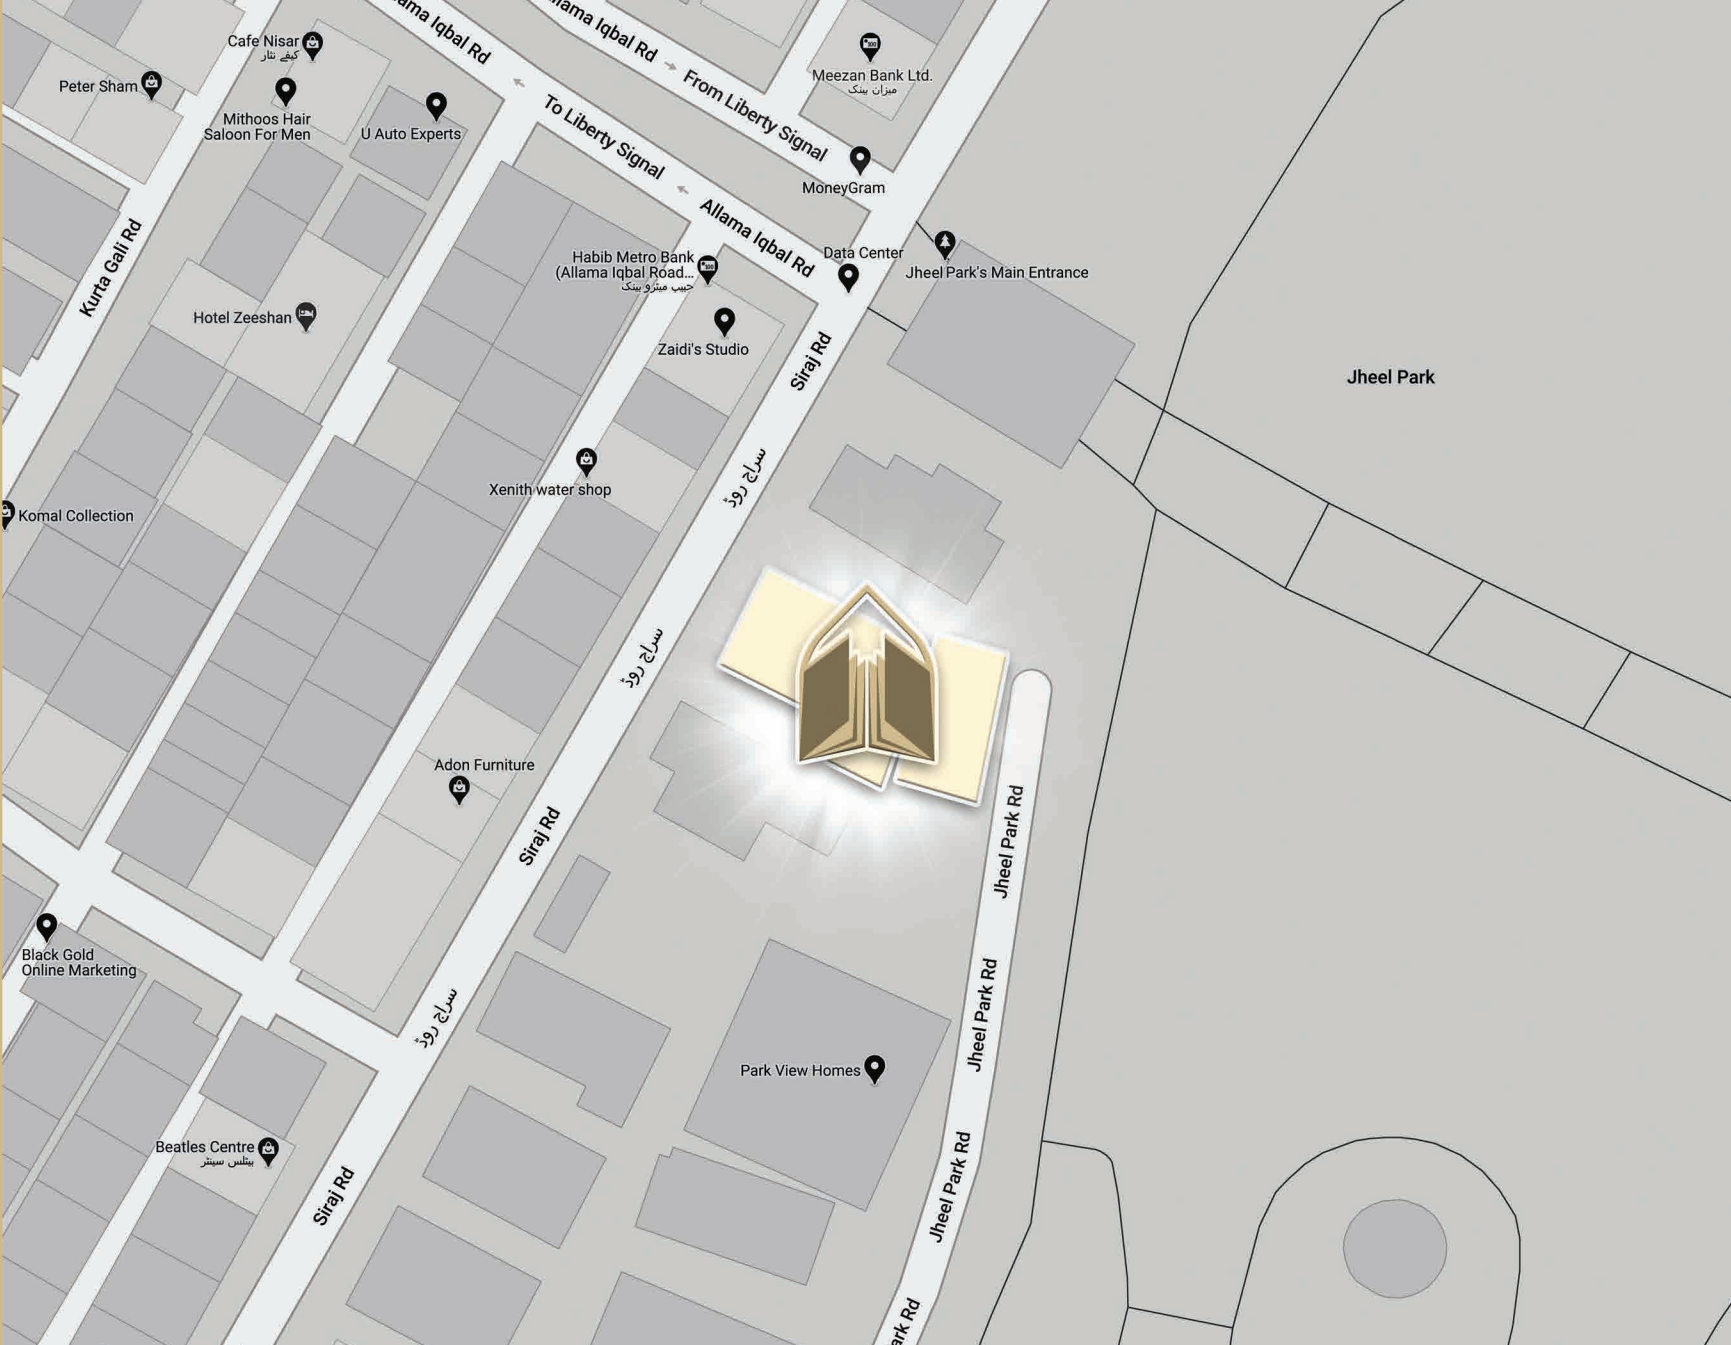

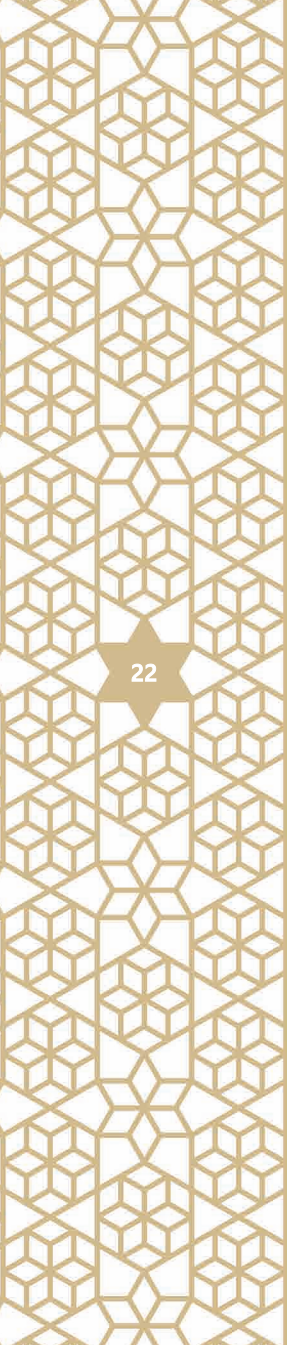

We offer activities and learning experiences that encourage creative and intellectual expression, stimulate learning, and promote a warm, accepting and flexible learning climate for children. Each child's role is to be active, experimental, exploratory and selective. We not only educate our children to match the advancement in technology and processes but we also direct them towards principles, ethics and moral values.

We are dedicated to providing children with positive and joyful experiences to create a community of lifelong learners!
